BRC1E51A

User-friendly remote control with contemporary design

This simple, modern designed remote control in pure white (RAL 9010) matches your interior design. Operation is much easier and smoother, just follow the indications on the full dot liquid display.

Easy to use

- › **Main functions directly accessible**
Large buttons and arrow keys for easy operation. Basic settings such as fan speed and temperature can be intuitively operated. For other settings just select the function from the menu list.
- › **Improved graphical user interface for advanced menu settings**
The display gives an explanation of each setting for easy operation.

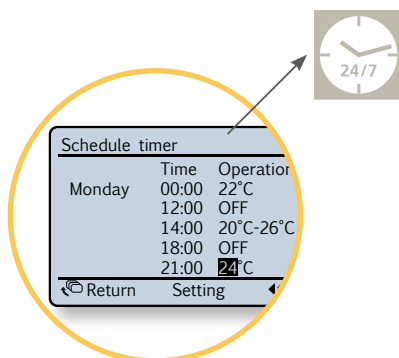

Real time clock with auto update to daylight saving time

Schedule timer

Including holiday setting, home leave operation, and an improved weekly timer

Supports multiple languages

Available in 10 languages.

English, German, French, Spanish, Italian, Portuguese, Greek, Dutch, Russian and Turkish

Other features

- › **Built-in backup power**
When a power failure occurs, all settings remain stored up to 48 hours.
- › **Backlight display**

Daikin's unique position as a manufacturer of air conditioning equipment, compressors and refrigerants has led to its close involvement in environmental issues. For several years Daikin has had the intention to become a leader in the provision of products that have limited impact on the environment. This challenge demands the eco design and development of a wide range of products and an energy management system, resulting in energy conservation and a reduction of waste.
